The thesis is entitled The Influences of Taoism, Confucianism, and Buddhism Teachings in the Looking Up 《银河补习班》 *Yínhé Bǔxíbān* movie. This study aims to know what are the teaching and culture that influence teaching conveyed by father towards his children in the movie Looking Up 《银河补习班》 *Yínhé Bǔxíbān*. Data is in the form of textual data and monologues that portray father's teaching towards his children. Research method used in the study is qualitative descriptive. Data are analyzed by using Tang (1992) Theory explaining the culture of China that is formed by the teachings of Taoism, Confucianism, and Buddhism. The finding shows that there are thirteen data that are influenced by China's culture. In detail, there is one data on father's teaching towards his children influenced by the teachings of Taoism, eleven data influenced by the teaching of Confucianism, and one data influenced by the teaching of Buddhism.

Keywords: Father's teaching towards his children, culture, Movie Looking Up
