Ayu Amandha Rachmalia. **The Analysis of Tzvetan Todorov's Narrative Structure and Moral Values in *Feel the Beat* Movie.** A Scientific Writing. English Department. Faculty of Letter and Cultures. Gunadarma University. Jakarta 2023.

Abstract

Narrative structure is about how the narration in a story is created. In this research, researchers examined not only the plot of the movie but also its moral values. This research aimed to find out narrative structure and moral values contained in *Feel the Beat* movie. To analyze the data, the researcher employed qualitative descriptive method. In this research, the researcher used Tzvetan Todorov's theory and Linda & Eyre's theory to analyze the movie. In this research, the researcher found 5 narrative structures consist of 6 data such as equilibrium (1), disruption (2), recognition disruption (1), attempt to repair the disruption (1), and reinstatement of the equilibrium (1) in *Feel the Beat* movie. Also, the researcher found 5 moral values consist of 7 data in *Feel the Beat* movie such as courage (1) and peace of ability (1) which are included as values of being, whereas respect (2), love (1), and the last one is unselfishness and sensitivity (2) are included into values of giving.

Key words: *Narrative Structures, Moral Values, Movie*
