Keywords: Safety Shoes, Synthetic Leather, Thick Synthetic Leather MD Pelangi  
(xii) + 50 + Appendices)

Abstraction- CV Karya Putra Priangan is a shoe safety company engaged in manufacturing which was established in 2001, then it is a company that has shoe safety products that have guaranteed quality, but as the world industry develops more and more companies compete with CV. Putra Priangan, Safety Shoes (Safety Shoes) are one of the Personal Protective Equipment (PPE) that must be worn by workers to avoid the risk of accidents, durable shoes that have protective reinforcement in the toes that protect the feet from falling objects or compression. Safety shoes are effective in keeping the feet of industrial workers safe from sharp and heavy objects while working in factories. The purpose of this writing is to find out the manufacturing process of safety shoes using MD Pelangi's thick synthetic leather material. This writing is based on field studies and literature studies conducted by the author.
