APLIKASI TOKO ONLINE ELANG KRIYA ARTA BERBASIS WEB

Scientific Writing, Department of Informatics Engineering, Faculty of Industrial Technology, Gunadarma University, 2022.Keywords: E-Commerce Website Creation, Asta Kriya Arta, Website

(xiv + 54 + attachments)

Elang Kriya Arta is a medium-sized company engaged in the production and sale of household goods. Elang Kriya Arta, which already has many customers, still uses manual procedures in its sales transactions and uses social media for promotion. To solve the problem of ordering goods easily online just by using the internet. Therefore this writing intends to create an "Elang Kriya Arta E-Commerce Website Using PHP, CSS, and HTML5". This aims to be able to help the community to buy clothing and accessories easily and as a means of promoting the Elang Kriya Arta store so that it can be more widely known by the public. Making Elang Kriya Arta E-Commerce Websites uses the sublime application with the PHP, CSS, and HTML5 programming languages, while the database connection uses MySQL.
