Abstract

Vikram. 57418664
DEVELOPMENT OF TEACHING MATERIALS REGARDING THE FEATURES
OF THE KNIME APPLICATION.
Jurusan Teknik Informatika Fakultas Teknologi Industri, Universitas Guna-
darma, 2021.
Keywords : Data mining, Knime, Data visualization

(x+ 61+ appendix)

Scientific Writing is writing that discusses all the features of the KNIME
application, the tools contained in the KNIME application and case studies
using the KNIME application. brings together various components in machi-
ne learning with the concept of data diagrams. KNIME software can model
each stage in machine learning with various programming languages. There
are several programming languages in machine learning such as python, C,
R, Java, Scala and so on that are supported by the KNIME application.
