E-Voucher Semester Pendek Universitas Gunadarma.

Essay. Department of Informatics, Faculty of Industrial Technology, Gunadarma University.
2020

Keywords: semester pendek, e-voucher, Gunadarma University

(xiv + 96+ attachments)

In purchasing semester pendek vouchers at Gunadarma University, the process of purchasing vouchers can only be done by students by visiting Gunadarma University. This method has problems, one of which is that users have to come and queue when purchasing vouchers. Along with the development of information technology, the process of purchasing vouchers can be purchased online via the E-Voucher website, so the student can do the buying process by logging on to the website. Making this website using the programming language PHP and MySql as the database. This website requires an internet network to display data. Based on the results of the System Usability Scale (SUS) trial, it can be concluded that this website makes it easier for users or students to purchase short semester vouchers.
