INTERACTIVE CD CLASSICAL MUSIC INSTRUMENT RECOGNITION
A Scientific Research. Information System.Faculty of Computer Science and Information Technology. Gunadarma University. 2012

Keyword : Interactive CD, Musik Equipment, Multimedia

(.. +83+ lampiran)

In this life would never be separated from the music, wherever be done will always be in touch with music. However, not everyone is familiar with the instrument. Because the tools of classical music performed only on special occasions only. Therefore needed an application that provides an introduction to classical musical instruments.

These applications are built in several stages, namely the first stage begins with making the design of the navigation structure, the second stage of the design input and output, the third stage coding, impelmentation stage program, and guide the use of the last stage.

Application of interactive cd classical music instrument recognition is an application to find out information and types of classical music. It aims to introduce the classical musical instrument.
