Futsal is one type of sport that is growing and popular today. Futsal was popularized in Montevideo, Uruguay in 1930, by Juan Carlos Ceriani. Futsal is an abbreviation of futbol (soccer) and sala (room) from Spanish or futebol (Portugal/Brazil) and salon (France). The number of futsal players is only 5 people and is usually played in a closed room (indoor), although some are made in an open area (outdoor). The difference between futsal and soccer is that in terms of the size of the ball, the futsal field and goal are smaller than soccer, playing time in futsal is only 2x20 minutes while playing football is 2x45 minutes, then there are only two referees in futsal, while in soccer there are three referees.

After the development of the sport of futsal, futsal fields in Indonesia have also developed into many, and are used as business fields by their managers. Therefore, it is necessary to create a website to make it easier for the public, especially futsal lovers, to order futsal fields.
