DESIGNING AND CREATING EXPERT ADVISORS WITH MARTINGALE STRATEGY BASED ON META QUOTES VERSION 4. Scientific Writings. Computer System / Information System. Faculty of Computer Science and Information Technology. Gunadarma University. Year 2023.

Keywords : EA, Martingale, MQL4, MART 1

(XII + 41 + 10)

MART EA 1 is one of the Expert Advisors that uses Martingale strategy in it. MART 1 EA trades automatically in the Forex market, with the help of a broker to be able to trade. This Expert Advisor was created because of the many complaints of loss due to poor money management or late market entry due to lack of time to analyze the market or chart. "MART 1 EA creation using MQL4" The broker use is OctaFX MT4 as its trading platform. This EA includes buying and selling currencies in forex with the currency unit used is US DOLLAR in various currencies that have been provided by the broker. Next is making the system design, then the EA creation stage, and finally the EA test and implementation, EA MART 1 has been completed and has been tested through the OctaFX MT4 Broker. In the testing phase EA MART 1 has gone well, as expected.
