

ABSTRACT

Juan Johannes.13119193

Development of an Attendance Website for Employees at Arundina Mart Using the PHP Programming Language and the CodeIgniter Framework

Undergraduate Thesis, Information Systems, Faculty of Computer Science and Information Technology, Gunadarma University, 2022.

Key words: Attendance, list of attendees, Web, MySQL

(XIV + 61 + Lampiran)

Arundina Mart is a minimarket engaged in the retail sector by focusing on providing daily needs. Increasing the use of technology is urgently needed in these times, including Arundina Mart has started digital attendance reports on its development. Another thing that is also needed is attendance which can be done via cellphone using the internet or online attendance. The developed web will be able to display attendance which is used as an online attendance media and attendance data can be downloaded in excel or pdf file formats. The Arundina mart attendance website can be accessed via <https://arundinamartweb.000webhostapp.com>.
