Tradition is a characteristic of a region that is owned from centuries ago from the ancestors. Traditions are carried out by the Betawi people, the focus of this is the symbolic meaning of the Betawi wedding tradition and the Betawi wedding malam mangkat tradition. The goal is to identify the symbols and their symbolic meanings associated with the Betawi wedding malam mangkat tradition. This research uses descriptive method, with data collection using snowball sampling technique. This theory uses the theory of symbolic interactionism. The results of the research in the form of symbols on the night of the Betawi wedding mangkat by this study such as handover, sekep, rauwahan, parade using delman, kudangan, mutih fasting, and others. The symbolic meaning contained in the mangkat night was found that the tradition of the malam mangkat carried out by this study, understanding the meaning of the interaction process in it, such as before conducting the wedding ceremony the male party asked a question in the form of kudangan which meant the promise of the bride's parents to her son's wishes had not been achieved. So the symbolic meaning is the occurrence of social interaction in accordance with the malam mangkat tradition to establish communication between individuals through rauwahan which is considered a symbol of solidarity and a sense of kinship so that there is interaction in it. The next writer's suggestion is that researchers can explore information that has not been discussed in previous studies.
