*This study aims to find out how to framing the analysis of Prabowo's speech "Indonesia disbanded in 2030" at the digital news portal Metrotvnews.com and Detik.com. This research is a qualitative case study with a constructivist paradigm. Data comes from the news of Metrotvnews.com and Detik.com period 21 - 26 March 2018 The method used in this research is Robert Entman's model framing analysis which states that every media constructing news must go through two stages, namely issue selection and aspect prominence after analyzing the news with 4 stages, (1). Definition of problems, (2) diagnose causes, (3) make moral judgment, and (4) emphasize settlement. The results of this study are. Metrotvnews looks to support Jokowi on the grounds that leaders must be optimistic, and assess Prabowo taking the wrong steps in his political maneuver. While Detik.com looks to be neutral because judging this is a positive warning for the government and only blaming the source of the quote from Prabowo.*
