*Message of Humanity in The Documentary A Taxi Driver (Content Analysis Klaus Krippendorff)*

*KeyWords : Message of Humanity, Documentary Film, Content Analysis*

*xi + 100 + Appendices*

*This study aims to determine the message of humanity contained in the documentary A Taxi Driver by using the Klaus Krippendorff content analysis method, namely, classifying it based on pragmatic content, semantic content and means of signs. The research approach used in this research is descriptive qualitative. The data collection technique is done by selecting scenes and dialogue texts that contain messages of humanity. The results of this study indicate that the documentary A Taxi Driver has a message of humanity that is displayed through the scenes in the film, including helping each other even though there are many obstacles that make them feel like giving up, the love of parents for their children, always sharing even though in difficult conditions, togetherness and gratitude will always be there to fight together. In this film, we can know that everyone must have a sense of humanity, but not everyone can take humanitarian action, the struggles carried out by the citizens of Gwangju, peter and kim man seob will be commensurate with the mutual help, they do to achieve the goal will be revealed a truth about the human rights violations that took place in Gwangju in 1980.*
