***THE EFFECT OF RETURN ON EQUITY, CURRENT RATIO AND FIXED ON COMPANY VALUE IN PROPERTY AND REAL ESTATE COMPANIES LISTED ON THE INDONESIA STOCK EXCHANGE IN THE PERIOD 2020-2023***

*Thesis. Faculty of Economics. 2024*

*Keywords: Return On Equity, Current Ratio, Fixed Asset Ratio, Company Value (xiv + 66+ attachments)*

*Real estate companies are one of the majority of companies listed on the Indonesia Stock Exchange (IDX). Every company listed on the Indonesia Stock Exchange (IDX) hopes that the price of the shares it sells will be very affordable and attract investor interest. This is because the higher the stock price, the higher the value of the company. This study aims to test and analyze the effect of Return On Equity, Current Ratio, and Fixed Asset Ratio on company value in property and real estate companies listed on the Indonesia Stock Exchange for the 2019-2023 period. The sampling method uses a purposive sampling technique. The sample in this study was property and real estate companies listed on the Indonesia Stock Exchange in 2019-2023, so that the sample obtained was 9 companies or  $n = 36$ . The data used is secondary data, namely the company's annual report. The analysis technique used is multiple linear analysis. The testing tool used is SPSS software version 26. The results of the study indicate that Return On Equity, Current Ratio, and Fixed Asset Ratio have an effect on company value. And simultaneously, the variables Return On Equity, Current Ratio and Fixed Asset Ratio have an effect on company value.*
