“Influence Growth of Sales, Growth of Assets And Size On The Capital Structure At Food And Beverage Companies Listed In The Indonesia Stock Exchange Period 2014-2018”

Thesis. Faculty of Economics. 2019
Key Words : Growth of Sales, Growth of Assets, Size and Capital Structure

(xiv + 74 pages + attachment)

Indonesia prepared for a 4.0 industrial era in efforts to boost competitive and productivity of the national manufacturing industry. Indonesia’s 4.0 industries will attract both foreign and domestic investment which will affect its decision to use capital. The purpose of this study to determine the influence growth of sales, growth of assets and size on the capital structure at food and beverage companies listed on the Indonesia Stock Exchange period 2014-2018.

The population is taken in this research are food and beverage industry companies listed on the Indonesia Stock Exchange. The sampling techniques used a purpose sampling with acquired 12 companies over 5 years observation by sample amount of 60. The data analysis technique is using multiple linear regression. Hypothetical testing uses the t-stats and the f stats.

The result of this study shows that variable growth of sales and growth of assets have no effect on the capital structure but size affects on the capital structure.
